

Econ Scholars,

I want to direct your attention to the resources that you have at the end of each chapter. After you have read the chapter, studied the PowerPoints, watched the lecture videos and taken notes, you should use these resources to check your understanding of the material. Not only is there a summary and key terms, but there are also:

Questions for Chapter 1:

"Self-Check" #1, 4 & 8 would be good to focus on

"Review" Questions #10-18 are all good to consider

"Critical Thinking" Questions like # 21, 22, 24, 27 & 28

Questions for Chapter 2:

"Self-Check" Questions: #2-7

"Review" Questions: # 8-18 are all good, BUT ESPECIALLY #18!!!!

"Critical Thinking" Questions: # 20 & 22

Hope this helps!

Justin
